

## TESTIMONIALS

### **Alberto Farias**

My name is Alberto Farias, and I would like to share my experience with the stem cell application for anti-aging; this technology has made a significant difference in my life.

Since I decided to try the stem cell application, I have noticed a remarkable transformation in my appearance and how I feel. The application not only focuses on the aesthetic aspect but has also contributed to my overall well-being and sense of vitality.

A general revitalization are just some of the benefits I have experienced. It has been a valuable investment in my health and happiness, and I am grateful for the results it has provided. *Dated 2023*

### **Irene Aldana**

My name is Irene Aldana, and I am a UFC fighter dedicated to performance and excellence in every aspect of my life. Discovering the stem cell application for anti-ageing has been a true game-changer in my career and my approach to well-being.

As an athlete, subjecting my body to intense training and facing constant physical challenges is part of my daily routine. The stem cell application has proven to be an essential tool for accelerating recovery and rejuvenating my body in ways I never imagined.

I recommend this application to my fellow athletes and anyone seeking an advanced and effective solution for anti-aging. Thanks to this innovative technology, I am ready to face every challenge with confidence and vigor, both inside and outside the octagon. *Dated 2024*

### **Daniel Samperio**

My experience and results in using stem cells for anti-ageing treatment have been a pleasant personal discovery for smooth skin, I have had no increase in hair loss and it has unlocked incomparable energy and mood. This has been my journey with stem cells.

Stem cell therapy, in my opinion, is not just about looking young, it is about feeling young, and the results were the sum of the two parts. *Dated 2024*

### **Jim and Carolyn**

Dr. Zarate and Dr. Arroyo are amazing! We are grateful to have discovered Sportmed Medical Center! My wife, Carolyn broke her wrist while rollerblading and needed to have open reduction distal radius surgery to repair the injury. We traveled from Washington State for this surgery and are grateful for all the Sportmed staff who were helpful and always very professional. Gilda, the business manager responded to all our questions and concerns via texts and emails in a very timely manner, even on weekends! Dr. Arroyo and Gilda provided us with their personal cell phone numbers to contact them if we had any issues or concerns. Two days after surgery, Carolyn decided to exercise and as a result had some swelling on her injured hand. Dr. Arroyo offered to come directly to our hotel to examine Carolyn's hand on Sunday if the swelling didn't go down. Fortunately, the swelling subsided and Dr. Arroyo didn't need to take time from his day off to come see Carolyn. We have never experienced this type of personal care and compassion in the United States by a medical provider. Prior to selecting Sportmed for Carolyn's surgery, we did hours of research and found Dr. Arroyo and Zarate to be outstanding surgeons. Sportmed Medical Center is certified and endorsed by the FIFA International Football Federation as a medical center of excellence worldwide and by the International Federation of Sports Medicine FIMS. *Dated 2024*

### **Misty Taylor**

I was very scared to come to Mexico for my son to get stem cells. I did a lot of research and felt led to come here. My son is 14 and he suffered a spinal cord injury after a dirt bike wreck. He is ASIA T5 B, paralyzed from nipples down. We went to Zapopan for a month. Dr Arroyo and his team were fantastic, he and his wife speak very good English as well as a lot of the staff.

We stayed in an air bnb while there. They lined up a driver for us and he was great as well. We have been home for a couple weeks and my son can tell a huge difference in sensation and movement. They went way above and beyond what they had to do for us. The therapist were very good. *Dated 2025*
